

Change your life and the life of a child.....

Become a Mentor!

Partnership for Our Future focuses on one-to-one mentoring of youth ages 10-14 receiving services through dozens of community-based programs at our agency.

With the support of the US Department of Education, Bradley University, and community volunteers, we hope to provide over 150 youth the individual attention they need to succeed academically while building social skills and self-esteem.

We hope to promote this success by having youth work with mentors to improve academic performance, reduce unexcused absences from school and expand career and/or post-secondary educational options and goals.

Mentors and youth can do a wide range of activities including but not limited too: school activities, tutoring, sporting or cultural events, and staying in contact with calls, letters or emails.

Children's Home is seeking community members to mentor youth year round, as our waiting list of children wanting a mentor continues to grow.

Thank you for taking the time to consider this opportunity and we hope you make your resolution to change your life and the life of a child!

Please contact me for more information about Partnership for Our Future or to find out how to become a mentor!
